

INDEPENDENT ASSURANCE REPORT

To the management of the Government Authority for Electronic Certification of the People's Democratic Republic of Algeria ("Autorité Gouvernementale de Certification Electronique" or "AGCE"):

Scope

We have been engaged, in a reasonable assurance engagement, to report on AGCE management's [statement](#) that for its Certification Authority (CA) operations in Algiers, Algeria and Annaba, Algeria throughout the period 1 April 2022 to 30 September 2022 (the "Period") for its CAs as enumerated in [Attachment A](#) :

AGCE has:

- disclosed its code signing ("CS") certificate lifecycle management business practices in in its:
 - [Government Certification Authority CP/CPS, v2.0, 25 June 2022 \("CP/CPS"\)](#)
 - [AGCE CPS for Legal and Natural Persons, v2.0 25, June 2022 \("CP/CPS"\)](#)
 - [AGCE CPS for Devices, v2.0, 25 June 2022 \("CP/CPS"\)](#)
 - [Government Certification Authority CP/CPS, v1.2, 12 October 2021 \("CP/CPS"\)](#)
 - [AGCE Corporate Certification Authority CPS, v1.4, 12 October 2021 \("CP/CPS"\)](#)
 - [AGCE Infrastructure Certification Authority CPS, v1.5, 12 October 2021 \("CP/CPS"\)](#)including its commitment to provide CS certificates in conformity with the applicable Baseline Requirements for the Issuance and Management of Publicly-Trusted Code Signing Certificates, and provided such services in accordance with its disclosed practices
- maintained effective controls to provide reasonable assurance that:
 - logical and physical access to CA systems and data is restricted to authorised individuals;
 - the continuity of key and certificate management operations is maintained; and
 - CA systems development, maintenance, and operations are properly authorised and performed to maintain CA systems integrity.

in accordance with the [WebTrust Principles and Criteria for Certification Authorities – Code Signing Baseline Requirements v2.7](#).

Certification authority's responsibilities

AGCE's management is responsible for its statement, including the fairness of its presentation, and the provision of its described services in accordance with the WebTrust Principles and Criteria for Certification Authorities – Code Signing Baseline Requirements 2.7

Our independence and quality control

We have complied with the independence and other ethical requirements of the Code of Ethics for Professional Accountants issued by the International Ethics Standards Board for Accountants, which is founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behaviour.

The firm applies International Standard on Quality Control 1, Quality Control for Firms that Perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services, Engagements and accordingly maintains a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Practitioner's responsibilities

Our responsibility is to express an opinion on management's statement based on our procedures. We conducted our procedures in accordance with International Standard on Assurance Engagements 3000 (Revised), *Assurance Engagements Other than Audits or Reviews of Historical Financial Information*, issued by the International Auditing and Assurance

Standards Board. This standard requires that we plan and perform our procedures to obtain reasonable assurance about whether, in all material respects, management's statement is fairly stated, and, accordingly, included:

- (1) obtaining an understanding of AGCE's CS certificate lifecycle management business practices, including its relevant controls over the issuance, renewal, and revocation of CS certificates, CS Signing Authority certificates, and CS Timestamp Authority certificates;
- (2) selectively testing transactions executed in accordance with disclosed CS certificate lifecycle management business practices;
- (3) testing and evaluating the operating effectiveness of the controls; and
- (4) performing such other procedures as we considered necessary in the circumstances.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Relative effectiveness of controls

The relative effectiveness and significance of specific controls at AGCE and their effect on assessments of control risk for subscribers and relying parties are dependent on their interaction with the controls, and other factors present at individual subscriber and relying party locations. We have performed no procedures to evaluate the effectiveness of controls at individual subscriber and relying party locations.

Inherent limitations

There are inherent limitations in the effectiveness of any system of internal control, including the possibility of human error and the circumvention of controls. For example, because of their nature, controls may not prevent, or detect unauthorised access to systems and information, or failure to comply with internal and external policies or requirements. Also, the projection to the future of any conclusions based on our findings is subject to the risk that controls may become ineffective.

Practitioner's opinion

In our opinion, throughout the period 1 April 2022 to 30 September 2022, AGCE management's statement, as referred to above, is fairly stated, in all material respects, in accordance with the WebTrust Principles and Criteria for Certification Authorities – Code Signing Baseline Requirements v 2.7

This report does not include any representation as to the quality of AGCE's services beyond those covered by the WebTrust Principles and Criteria for Certification Authorities – Code Signing Baseline requirements V2.7, nor the suitability of any of AGCE's services for any customer's intended purpose.

Use of the WebTrust seal

AGCE's use of the WebTrust for Certification Authorities Seal constitutes a symbolic representation of the contents of this report and it is not intended, nor should it be construed, to update this report or provide any additional assurance.

GOVERNMENT AUTHORITY FOR ELECTRONIC CERTIFICATION

AGCE MANAGEMENT'S STATEMENT

Government Authority for Electronic Certification of the People's Democratic Republic of Algeria ("Autorité Gouvernementale de Certification Electronique" or "AGCE") operates the Certification Authority (CA) services known as enumerated in [Attachment A](#).

The management of AGCE is responsible for establishing and maintaining effective controls over its CS CA operations, its CS CA business practices disclosure on its website which is available at <https://ca.pki.agce.dz/repository/>, CS key lifecycle management controls, and CS certificate lifecycle management controls. These controls contain monitoring mechanisms, and actions are taken to correct deficiencies identified.

There are inherent limitations in any controls, including the possibility of human error, and the circumvention or overriding of controls. Accordingly, controls placed into operation can only provide reasonable assurance with respect to AGCE's Certification Authority operations. Furthermore, because of changes in conditions, the effectiveness of controls may vary over time.

AGCE management has assessed its disclosures of its certificate practices and controls over its code signing ("CS") CA services. Based on that assessment, in AGCE management's opinion, in providing its Certification Authority (CA) services in Algiers, Algeria and Annaba, Algeria, throughout the period 1 April 2022 to 30 September 2022, AGCE has:

- disclosed its code signing ("CS") certificate lifecycle management business practices in its:
 - [Government Certification Authority CP/CPS, v2.0, 25 June 2022 \("CP/CPS"\)](#)
 - [AGCE CPS for Legal and Natural Persons, v2.0 25 June 2022 \("CP/CPS"\)](#)
 - [AGCE CPS for Devices, v2.0, 25 June 2022 \("CP/CPS"\)](#)
 - [Government Certification Authority CP/CPS, v1.2, 12 October 2021 \("CP/CPS"\)](#)
 - [AGCE Corporate Certification Authority CPS, v1.4, 12 October 2021 \("CP/CPS"\)](#)
 - [AGCE Infrastructure Certification Authority CPS, v1.5, 12 October 2021 \("CP/CPS"\)](#)

including its commitment to provide CS certificates in conformity with the applicable Baseline Requirements for the Issuance and Management of Publicly-Trusted Code Signing Certificates, and provided such services in accordance with its disclosed practices

- maintained effective controls to provide reasonable assurance that:
 - logical and physical access to CA systems and data is restricted to authorised individuals;
 - the continuity of key and certificate management operations is maintained; and
 - CA systems development, maintenance, and operations are properly authorised and performed to maintain CA systems integrity.

in accordance with the [WebTrust Principles and Criteria for Certification Authorities – Code Signing Baseline Requirements v2.7](#).
